

Innovative Glass Containers Solutions

Enhance Glass Container Processing with Reliable Dust Collection

When selecting dust collection solutions that affect your products and production, rely on the proven innovation and expertise of Donaldson® Torit®. With nearly 90 years of experience engineering dust collectors and filters, Donaldson Torit is the name you can trust above all others for cleaner, reliable float glass processing.

- Innovative dust collection technology
- Proven experience in glass container applications
- Sales and service support worldwide
- Retrofittable dust collection products for plant upgrades

Donaldson Company Offers a Wide Variety of Patented, High-Performance Filtration Media Solutions

- Dura-Life™ Twice The Life Filter Bags
 - help meet Title V, with 30% fewer emissions than standard polyester.
 - help meet OSHA PEL and TLV exposure limits.
 - lasts 2–3 times longer than ordinary polyester felt.
 - requires fewer filter changeouts resulting in material, labor and energy savings.
- Ultra-Web® nanofiber
- Tetratex® PTFE membrane

DURA-LIFE
Twice The Life Filter Bags

Donaldson Torit is a single-source filter supplier throughout the world.

Donaldson Torit Equipment in the Glass Container Industry

We provide the most complete range of dust collection equipment in the world.

- Baghouse Collectors
- Cartridge Collectors
- Electric Control Panels
- Fans
- Rotary Valves
- Refrigerant/Dessicant Dryers

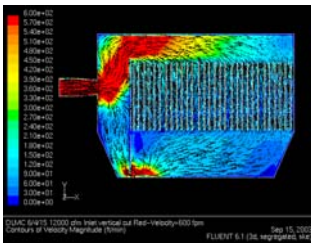

The Right Filtration Solutions for the Glass Container Industry

The Best Mix

of Products and Expertise

Innovative Dust Collection Technology

Donaldson Torit reinvests nearly \$90 million on a yearly basis to the science and technology of air filtration. This commitment to advancing our technology is surpassed by no other air filtration business.

FLUENT®* Airflow Modeling Software is just one example of a state-of-the-art tool Donaldson Torit uses to predict the airflow distribution with our dust collector systems. This tool can optimize flow and predict particle behavior to reduce the risk of abrasion.

Batch House Dust Control

Donaldson Torit understands what it takes to keep your people and production on track. From our rugged, high performance baghouses to our innovative, ultra-efficient cartridge collectors, we provide the right mix of standard and custom solutions for cleaner and more compliant processing.

- Bucket Elevators
- Rail Car Unloading
- Conveyor Transfer Points
- Day Bins
- Venting Silos
- Weigh Scales

Worldwide Service

Donaldson Torit has a strong global presence throughout the world with numerous manufacturing plants dedicated to dust collection. In the U.S., Donaldson Company has more than 30 local direct field sales employees and several dealers, application engineers, certified service centers, and OEM and New Business Development account managers, prepared to serve your dust collection needs.
